For high-speed industrial and marine diesel engines

Product Technology	Date 19.07.2012	Issued by SUEMA	SI number	<b>1st Amendment SI0804M Electrical accessories</b>
--------------------	--------------------	--------------------	-----------	---

**Components affected** Information concerning exemption from liability in case of installation of electrical accessories from other manufacturers without clearance from MAN on connections not designated for the customer or shipyard!  
**The only approved connections on the terminal box are: X4, X8 and X9**

## Note

Connections on the following MAN delivery shares are not permitted:

**1. Engine control units ( K-line, CAN Bus)**

**2. MAN internal or external throttle control system from Bosch Rexroth**

**Exception 1:**

Installation of the "Wireless remote control" from Yacht Controller

The installation is subject to the following prerequisites:

The installation of the Yacht Controller System is made in agreement between the customer and Bosch Rexroth; the Bosch Rexroth control unit "T 251-DG- CAN-extern" is used.

Approval and functional checks have to be made by Bosch Rexroth.

MAN does not accept any liability for faults, problems, failures which are caused by components from Yacht Controller or the Bosch Rexroth interface. This also includes faulty wiring, installation or defective software.
